Ketchum Police Department Offices and Storage

- Front door sticks in winter due to snow load on roof
- Due to lack of space inside office, finger print station is in entryway
- Employees that work in front office are unable to see customers as they walk up to door or approach window

- 13 employees change for work in this locker room
- 10 men and three women
- Small bathroom with shower used by all of them

Limited storage and extra floor wall and ceiling penetrations throughout

Record storage, found bike storage and air handling equipment

- Storage areas built in where ever we can make room
- This is ammunition room with limited space
- Network cables drop from ceiling and go down through hole in floor

- Evidence processing area
- Evidence drop
- Secured evidence storage room

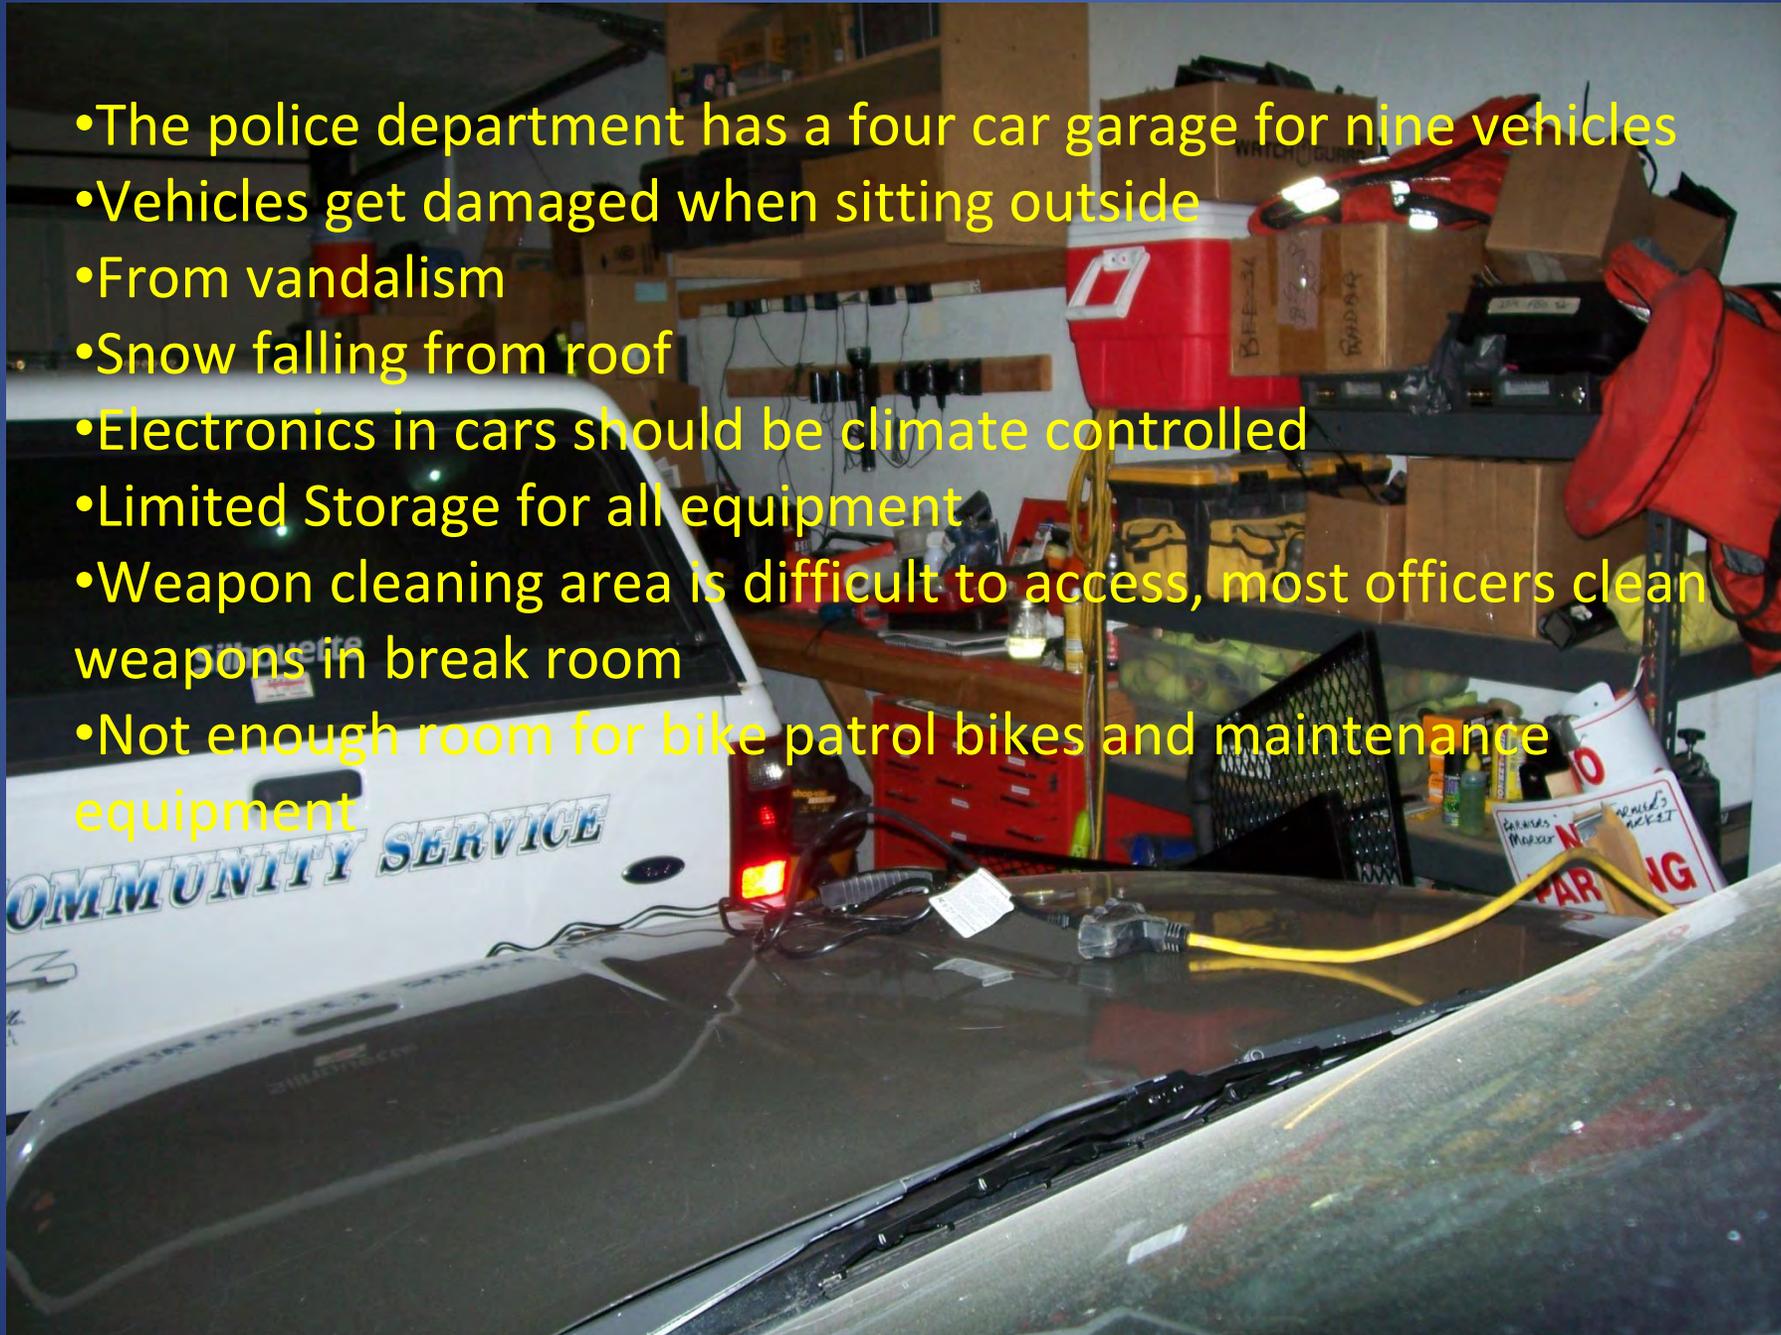

Storage for city records and project blueprints

- More records storage
- The weight of all these network cables and electrical wiring is damaging ceiling tiles

- The police department has a four car garage for nine vehicles
- Vehicles get damaged when sitting outside
- From vandalism
- Snow falling from roof
- Electronics in cars should be climate controlled
- Limited Storage for all equipment
- Weapon cleaning area is difficult to access, most officers clean weapons in break room
- Not enough room for bike patrol bikes and maintenance equipment

Limited storage throughout offices

- Old closet made into intox room and desk space
- Patrol room has six officers working in office with three work stations
- Riser Room is to be kept free from storage, but we need to store poly-com and equipment

Conference Room doubles as victim interview room

Records area and service window

Community Service Officer's work stations
