

JOINT PRESS RELEASE
May 24, 2017
FOR IMMEDIATE RELEASE

Preliminary Damage Assessment

Residents and businesses in Blaine County affected by flooding encouraged to document damages

Blaine County Disaster Services is collecting countywide information on the economic and structural impact to the community caused by ongoing flooding. This applies to all residents and businesses of Blaine County, regardless of location.

The Preliminary Damage Assessment process helps to identify the overall impact to the whole community. It does not guarantee any type of assistance, but it will be used to review all opportunities for assistance.

Damage Assessments are used to determine how much damage **individuals and businesses** have sustained. Forms can be found on the Idaho Office of Emergency Management website: www.ioem.idaho.gov (fill in pertinent fields for your particular damages and include photos if possible).

FEMA requires damage assessments to be submitted within 30 days after the end of an event. We strongly encourage you to document and report all flood damages as soon as possible.

Email your completed forms with photo attachments to ccorwin@co.blaine.id.us or mail to
